

**MEAT ESTABLISHMENT AUDIT CATEGORIES****INFORMATION PAGE**

Under EU food hygiene legislation, which has applied from 1 January 2006, Food Business Operators' procedures and controls in approved establishments must be audited. Meat establishments subject to veterinary control (i.e. slaughterhouses, cutting plants and game handling establishments) are audited by the Meat Hygiene Service (MHS) in Great Britain and by the Department of Agriculture and Rural Development (DARD) in Northern Ireland.

The hygienic production of fresh meat is the responsibility of the Food Business Operator (FBO). The purpose of the official audit is: (a) to provide assurance that the FBO's procedures and controls are operating effectively; (b) to make recommendations to the FBO where improvements to internal procedures and controls are appropriate; and (c) to take appropriate risk-based enforcement action, where necessary.

Details of the audit scheme are on our website at: <http://www.food.gov.uk/foodindustry/meat/meataudit/>

The tables below list the currently available audit category for those slaughterhouses, cutting plants and game handling establishments through the United Kingdom that have been audited to date. The audit process includes the right of the FBO to seek review of the proposed audit category and this may delay publication of the audit category. Establishments are listed by type and location (England, Wales, Scotland and Northern Ireland) in alphabetical order of their trading name.

**NOTE:****R = Audit Category Review in Progress**

(The category shown is the latest that is available. A subsequent audit has been undertaken but that audit category is under review)

**N = Establishment Not Operational**

(The category shown is the latest that is available. A subsequent audit is due but the establishment is no longer operational)

## Current Audit Categories

Number of Establishments Listed: 1152 (now includes NI audit scores)
